

Article 25 —SANITARY REGULATIONS FOR BARBERS

28-25-11. Disinfecting electrical instruments.

(a) Clippers, vibrators, and other electrical instruments shall be disinfected prior to each use by:

(1) First removing all foreign matter; and

(2) Disinfecting with an EPA-registered product that contains one of the following terms on its label: sterilant; or bactericide, fungicide and virucide; or disinfectant, fungicide and virucide; or germicide, fungicide and virucide used according to manufacturer's instructions.

(b) All disinfected electrical instruments shall be stored in a clean, covered place.
